"Love Is"

She was only the bone in my book
But I love her just the same

Little square that we knew
Orange dress, you knew I liked the
Very way about you
Love is vanishing, overnight
Records that we listened to
Ornaments upon your shelf
The void I'm falling into
Love is going to limn myself
How was I to know I'd feel this way
But I do, and If you have even felt
The same way to
You'll notice what I'm going through
Lingering of lost times
Lonliness come with the night
Velvet in a church chimes
Love that now is out of sight
