Repeat after me
It's nice to talk with you
Repeat after me
I love your eyes
Repeat after me
It's nice to walk with you
Every step leads us closer to paradise

And if you? of the song my heart is singing
There's just one way to let me know
So repeat after me
I'll always love you
(I'll always love you)

Then repeat after me
I'll always love you
(I'll always love you)
I'll always love you
(I'll always love you)
(Always, always, always)
