I wish I'd never been born
Don't like this life I'm living
My heart is shattered and torn
I wish I'd never been born

Without your loving (without your love)
I sit and cry (I sit and cry)
I'm so downhearted since the day we said goodbye
This life I'm living (this life I live)
What is it worth
I'd like to pack up all my cares and leave this earth

I wish I'd never been born
Don't like this life I'm living
My heart is shattered and torn
I wish I'd never been born

I wouldn't miss you (I wouldn't miss you)
Or feel this way (or feel this way)
If I was never born to see the light of day
I wouldn't miss you (I wouldn't miss you)
Or want you so
You can't be hurt by all the things your heart don't know

I wish I'd never been born
Don't like this life I'm living
My heart is shattered and torn
I wish I'd never been born
I wish I'd never been born
I wish I'd never been born
