I don't know the rock and the roll  
Cannot sing funk and soul  
I don't know the bluegrass and jazz  
Boy, my singing is a mess  
I can't sit upon the rhythm'n'blues  
Cannot jump up with my blue suede shoes  
Can't sing like jacko chants along  
I just can do one song

Chorus:

The only song I know, is the ska a gogo  
The ska a gogo is the only song I know  
Though I am no part of the yardland called jamaica

I feel like jamaica is part of my body and part of my  
Soul

No matter how I try all the day  
No matter how I sing all the way  
I can't even sing a little thing for a school pickney  
Hip a hopical pop and disco and tekno is all wrong  
There's only one song I can sing all the day  
And all the night long

Chorus
