Just let it go, baby we can be whatever you want and
more, don't worry bout it, girl you know for sure
I'll always be in your heart, that's where I stay babe,
yeah right there uh

Whatever you want baby we can be, just let it go, don't
worry bout it, girl you know for sure
I'll always be in your heart, that's where I'll stay, yeah
right there

If you want to go the extra mile with me and make it
best forever
Then I'll be the one who stays, who stays
Oh do you think we are, we are still too young to even
tell if you are mine and I am yours, but we wont know
until we get there

Just let it go, baby we can be whatever you want and
more, don't worry bout it, girl you know for sure
I'll always be in your heart, that's where I stay babe,
yeah right there uh

Whatever you want baby we can be, just let it go, don't
worry bout it, girl you know for sure
I'll always be in your heart, that's where I'll stay, yeah
right there
