I've only been alone without you  
The rest was just a game (It's so far away)  
You fill my empty room with starlight  
How do I find the words to make you stay?

And here inside I'll never change  
We can last forever  
Please stay

You Belong To Me  
Inside my love you'll always be  
You Belong To Me  
And only you can set me free

Inside my love you'll always be  
You'll always be  
Inside my love you'll always be  
Inside my love

I've stumbled through this life, a shadow  
Of who I really am (You gave me your hand)  
You turned on all the lights inside me  
I'll never turn away from you again

And here inside I'll never change  
We can last forever  
Please stay

You Belong To Me  
Inside my love you'll always be  
You Belong To Me  
And only you can set me free
