You made me mad
Now I, I need a little room to breathe
And you can't bring me down.

You shoulda been nice to me
But you made me mad
Now I, I need a little room to breathe
And you can't bring me down.

You, you wanna ruin everything
And you, you wreck real bad.
Now I, I need a little room to breathe and you can't
Bring me down
To the bottom!

All that I want is just all that I need

You shoulda been nice to me
But you, you made me mad

Now I, I need a little room to breathe and you can't
Bring me down
To the bottom

All that I want is just all that I need all that I want
Is just all that I need.

To the bottom!

All that I want is just all that I need all that I want
Is just all that I need.

You, you shoulda been nice to me
But you, you made me mad. (you made me mad) now I,
I
Need a little room to breathe and you can't bring me
Down, to the bottom!
