And this one is dedicated to the people who
Who help you take a stand
Who help you make it through

And everybody's got at least one
A friend to lend a hand
Baby if you can't see that
Then you just don't understand
You just don't understand

So forget all the suspicion
The foolish selfish pride
You got to reach down deep for the good
Cause there is so much inside

And you know that it is a good habit
And once you really try
You just sail on up to the top
Close friend by your side
The loneliness has died yeh yeh

Try to be one of those people
Who can understand
When life that's never been easy
You got to take people by the hand
You know that I never been religious
But it seems so clear to me
If we could do just a little more reachin' out
The love you feel you'd see

So now that I've come up with this message
I didn't really mean to preach
It can't be wrong to protect advice
But we really have to try and teach

Teach yourself to be a kind person
When a friend is really down
You can sail back up to the top
Now I hope you understand
I'm sure you can understand
I hope you can understand

I'm sure you can understand
I hope you can understand
I'm sure you can understand

Everybody, everybody understand me now
Everybody, everybody I'm sure you can understand
