"I Can Love You"

Visit "[I Can Love You](#)" on MotoLyrics.com

I think that it's amusing
That all the winners feel they are losing
The race that don't have a finish line

So I'm gonna try to pull my stakes out just in time
So I - I can love you
Said I can really need you
And we could spend our lives together
Throughout all this stormy weather

Your love isn't illusion
It's the spark that started me movin'
And I've been down for the real last time

So I'm gonna try to make our love work out just fine
So I - I can love you
And I can really need you
And we could spend our lives together
Throughout all this stormy weather

I - I can love you
I - I can love you - hey
