Well you laugh instead of crying
Pretend to feel real good but you'd really like to die
Someone spit on your eye
Your lines are well rehearsed you don't even have to try
Well figure out an exit
I'd like to use my gut reaction but I can't

Somebody show me the man
Well show me the man with the plan

When they handed out instructions to this life
Well I must have been the guy hiding behind the door

Now my life is on the line
I might need some help to get me through the next
phase
Running out of time
I'd like to seal my fate and talk about an excuse
Somebody lied
Told me something that I really can't believe in
If luck is on my side
I know I'll do real good watch me take it all the way

You do the best that you can
But there's no guarantee

Now my life is on the line
I might need some help to get me through the next
phase
Running out of time
I'd like to seal my fate and talk about an excuse
Somebody lied
Told me something that I really can't believe in
If luck is on my side
I know I'll do real good watch me take it all the way

Now my life is on the line
I might need some help to get me through the next
phase
Running out of time
I'd like to seal my fate and talk about an excuse

Somebody lied
Told me something that I really can't believe in
If luck is on my side
I know I'll do real good now watch me take it all the way

My life is on the line
Running out of time
Well somebody lied
I hope that luck is on my side
