Deep in the depths of the Amazon  
Exist descendants of cannibals  
A group of savages lost in time  
The jungle's secret forgotten tribe  
Enslaved by the vile drug lord  
And forced to dig in caves  
But once the chief's daughter is slaughtered  
They'll return to their ancient ways!

When the tribe attacks  
You have no place to go  
They will capture and tie you up  
Line you up in a row  
They'll begin their vengeful torture  
And you'll be forced to watch  
You'll scream in fear and pain  
As your partners are torn apart!

Cannibalized! You're eaten alive  
They'll cut off a piece of meat  
Cannibalized! You're brutalized  
You'll be forced to live for weeks

They'll make you die slow (make you die slow)
