

## Patty Griffin "Driving"

Visit "[Driving](#)" on MotoLyrics.com

Driving and driving  
Thinking about you  
Keep the car in the lines  
What else would I do  
I look straight ahead  
Lock all of my doors  
So tired of driving  
Don't wanna drive no more

Driving and driving  
Fast forward rewind  
Every morning and night  
Every day of my life  
Thinking about you  
Hugging that curb  
I think of jumping the skyway  
But I don't have the nerve  
I (?) don't have the nerve

Oh by the way, did I tell you what you do to me  
One way or another if gets me home

Driving and driving  
There's nothing on the radio  
There's an accident ahead  
Everyone is moving slow  
Police cars everywhere  
There's an ambulance too  
It looks pretty bad  
As I make my way through  
And I creep past the wreck and I think about you  
I got a pain in my neck and I think about you  
I got a tape in my deck and its broken in two  
I'm driving and driving  
Driving and driving  
Oh by the way, did I tell you what you do to me  
One way or another it gets me home  
Oh by the way, did I tell you what you do to me  
One way or another it gets me home
