"Apache Dancing"

Visit "[Apache Dancing](#)" on MotoLyrics.com

the music called my name tonight
the golden ages flashed tonight
the moon is big and bright tonight
let's have a bacchanal, my baby
spinning, spinning
you know the room is spinning around you
spinning around you

spinning, spinning
you know you've got me spinning around you...

we'll see the spirits dance tonight
through valentino's eyes tonight
tango, tango
you make me want to tango around you
tango around you

oh -- apache dancing
oh -- apache dancing with me
we like a tango like valentino
oh -- apache dancing with me.

romance will fill the sky tonight
the moon will have his fun tonight
on sheets as black as night tonight
just look me in the eye, my baby
spinning, spinning
you know the world is spinning around you
spinning around you

oh -- apache dancing
oh -- apache dancing with me
we like a tango like valentino
oh -- apache dancing with me.
