'Flash lights when ready'  
That's what she said to me  
'Flash lights when ready'  
That's what she said to me

'Some assembly required'  
That's what I said to her  
'Some assembly required'  
That's what I said to her

Oh, we're gonna glow in the dark  
We're gonna glow in the dark tonight

'Flash lights when ready'  
That's what she said to me  
'Flash lights when ready'  
That's what she said to me

'Some assembly required'  
That's what I said to her  
'Some assembly required'  
That's what I said to her

Oh, we're gonna glow in the dark  
We're gonna glow in the dark tonight  
We're gonna glow in the dark  
We're gonna glow in the dark tonight  
Alright

Ohhh  
Ohhh
