"If You Stayed Over"

And if it's on, It's on for good
Yeah
'Cause when it's gone, It's gone for good

Let me tell you

And if you stayed over,
You know we would,
If we could
Put it back together,
We could be... fine

If I breathe in the future,
Breathe out the past
Yeah
Savour this moment
As long as it lasts

Let me tell you
Put it back

If you stayed over
I'd make it so sweet,
I'll make you remember, baby,
From your head to your feet

And if you go now, then
You'll never know
How it could
Make it good
Make it good
