You say it's not so easy
You say this life will terrave his part
Let's make tonight feel easy
Pretend there is a start

You say you look for sweet lies
You say tonight there's a lot we can do
You gotta learn to let go
Before it's killing you (2x)

Wahaa
Yeaheah
Wahaa
Yeaheah

You want the perfect no one
Make it last to the moment he's gone
Someone to run away from
You're not the only one

Your life
Spot life
Sweet lies
Sometime
