I'm passing by I'm just walking around  
I never mind when you wanna leave  
I never cry when you say good bye  
But I die when I close my eyes

I remember the first time  
I realize that you said good bye  
I realize that I didn't try  
I realize that I'm dead since that night

Can you hear me can you feel the same  
Well I'm loosing my head but it's not in vain

Now I have this doubt, I can't tell you about  
I nevermind if you wanna go  
I don't mind if I'm alone,  
I don't mind that you're not at home  
I don't mind well I'm not right  
I don't mind, well I know I'm blind  
But I know what I'm feeling inside  
Well this diamond doesn't look so bright
