"Big Blue Sky"

I've left my house
I've left my past
Now it's time for me to reveal what I contain
And it's not that sad not that sad
Now listen forget about that,
Look forward never look backwards
I see flowers I see colors
There are cowboys playing with love
This place's full of joy

Chorus
Under the big blue sky
Under the big blue sky
The big blue sky...
Under the big blue sky
Hoo hoo

What should I do, oh what should I tell
To make you smile
To make you taste life
What should I do, oh what should I say
Till you understand that there's just one way
Now you can be my greatest hero
Just follow the big arrow
Sit in the grass and enjoy life

Chorus
Under the big blue sky
Under the big blue sky
The big blue sky...
Under the big blue sky
Hoo hoo
