"All-American Dream"

On the edge of the world where the neon screams diet-
coke religions
Shutdown tv-screens american boy loves american girl
Most beautiful people in the shattered world i do
believe
In all-american dream i do believe in all-american
dream on
The edge of the world where the freon streams snortin'
up
White mountains in the pools of white limousines
millenium boy
Millenium girl most beautiful people in this shattered
world
I do believe in all-american dream i do believe in all-
american dream
In god we trust in cars we rust an i do believe in all-
american dream
