I wanna feel you now like a thousand lies  
Bleeding out of your heart  
Burning in the night

Don't wanna see you crying  
Fallen out of light

I wanna feel you now  
Like an august rain  
Kissing summer goodbyes  
I wanna see your pain

Don't wanna see you crying  
Fallen out of light

I don't wanna see you crying little angel on my  
shoulder  
I wanna see you flying back to heaven where you  
belong

I wanna feel you now like a thousand knives  
Digging out of my heart  
Burning in the night

Don't wanna see you crying  
Fallen out of light

I don't wanna see you crying little angel on my  
shoulder  
I wanna see you flying back to heaven where you  
belong

Don't wanna see you crying little angel on my shoulder  
I said alright gonna get you crying  
Come hell or high water since you've been gone
