I'm crawlin' back to you like a rattlesnake i've got  
poison runnin'  
Thru burnin' down alive without you my dear things  
I've left behind make me want to disappear surrender  
Now lay down your arms girl can't you see for you  
I've been kicked around the world fallin' back on you  
Don't you believe everything i've said is true burnin'  
Down alive without you my dear things i've left behind  
Make me want to disappear no use tryin' to get your  
sorrows drowned  
Don't you know they just learn to swim
