Never promised you miracles baby i only wanted to be
with you
Tryin' to get over it is makin' me crazy i never thought
you could be so cruel
Whatever happened to the promises baby we made
each other
That night tryin' to get over it is makin' me crazy
If love's an angel you're a devil's spice burnin' up and
down
In my spine show me the angel i saw in your eyes 'fill
my last desire
And the next stop's paradise what did you want what
you wanted
From me baby why did you throw my heart away tryin'
to get over
It is makin' me crazy i never thought i could burn in
flames
Where could i find me a strong enough poison to wash
down
This hurtin' pain tryin' to get over it is makin' me crazy
If love's an injection you're the cheapest brown burnin'
up and down
In my veins
