We started out so good  
There was nothing like the two of us  
Yeah we understood  
That loving each other is  
Starting with foundations  
That we're building to last  
But you were not ready  
Yeah, you were unsteady  
And it's all come to head

Now I feel  
All lost I got no home  
I feel all alone  
In the house that we built  
No bricks  
It's got no stones  
You took all the love out  
Of the house that we built  
No guts  
It's got no bones  
I feel so alone  
In the house that we built  
No heart  
It's got no soul  
It's falling down and down

We started off so strong  
Two lovers playing house  
Like when the kids are gone  
Loving each other it got you scared  
How could you go and throw it away?  
Cos I gave you everything, everything  
Until you put it all to bed

Now I feel  
All lost I got no home  
I feel all alone  
In the house that we built  
No bricks  
It's got no stones  
You took all the love out  
Of the house that we built

No guts  
It's got no bones  
I feel so alone now  
In the house that we built  
No heart  
It's got no soul  
It's falling down and down

And I feel  
All lost I got no home  
I feel all alone  
In the house that we built  
No bricks  
It's got no stones  
You took all the love out  
Of the house that we built  
No guts  
It's got no bones  
I feel so alone now  
In the house that we built  
No heart  
It's got no soul  
It's falling down and down

Now I feel  
All lost I got no home  
I feel all alone  
In the house that we built  
No bricks  
It's got no stones  
You took all the love out  
Of the house that we built  
No guts  
It's got no bones  
I feel so alone now  
In the house that we built  
No heart  
It's got no soul  
It's falling down and down
