Jackie has a thing  
Even if the thing is not so hard  
She knows right now it's all she's got  
And she can make it swing

Jackie has a past  
Even if she's trying to forget  
Between the stage lights and the threat  
Oh she will blow the past away

[Chorus]  
La la la la la  
Life is just a lonely night of sad rain  
La la la la la  
Like a lone lost child who's on his own again  
La la la la la  
Life is just a bitter tone with sad refrain  
Gotta find a way to bear the strain

Jackie sings her pain  
Umm um umm um

Papa was so strong  
Yes he was a strong and charming man  
And Jackie did not understand  
Why you could feel so wrong

At the paradise  
Even if the pay is not so great  
And jackie has to work till late  
By night she sings her pain away

[Chorus]

Jackie works her batch  
Every single song she sings it slow  
And when the crowd begins to go  
She starts from scratch
