"Spoken"

I will become too attached to things
for this may cause me to forget.
The Lord takes from us.
Not as a punishment,
but as a test to see if we love material things
more than those infinite.

Hoping to find the stairway
Hope in your mind she says
"I wanna climb the mountain high"

Reality around me
Society confines me
And I am this world upon the shore

Let it go, Let i go, Let it go

Smokin away you find me
Dance in the clouds so high
I am the swell upon the shore

Reality around me
Society confines me
And I wanna Climb the Mountain High

Let it go, Let it go, Let it go

Let it go, Let it go, Let it fly

Let it go, Let it go, Let it fly
