Don't need a remedy
Take my shots right out of the jug
Well they serve a big depress
Come stock with urban mud
Everybody clap hands and do a little dance
With a crazy, streak baby
I don't mean maybe
Come on and lets do it right
Don't fight in a cold and lonley night

Don't need a remedy
I need a damn good time
I don't need no therapy
I'm driftin' baby, straight down the line
The line, the line, feel so fine

I don't need a remedy
Tho' I'm about to loose my head
Yeah man, I know I'm crazy

But you don't have to look so sad
I'm a honkey tonking, ride my donkey
On a trail on my way to hell
Alle yeah, I'm broke, no joke, will share
Baby listen, I sure can tell

Don't need a remedy
I need a damn good time
I don't need no therapy
I'm driftin' baby, straight down the line
The line, the line, feel so fine

Don't need a remedy
I need a damn good time
I don't need no therapy
I'm driftin' baby, straight down the line
The line, the line, feel so fine
