Well I feel like I've been waiting  
For a man to come and take me away  
Just take me away  
To avoid a passion and the usual stuff  
And take me away  
Just take me away  
You ever feel like you're crazy from the inside  
You ever feel this closing on you  
From the inside  
From the inside  
You ever feel like you're crazy from the inside  
You ever feel this closing on you  
From the inside  
From the inside  
Sometimes you gotta take control from the inside  
Sometimes you gotta control of your mind
