Hey there
Come and take a walk with me
Stroll into infinity
We'll stroll along
Until the dawn is gone
Midnight take it to the twilight
Just a little slice of light
Let's turn it off and on off and
on

Strolling ain't it wonderful
Into a light that lingers
On and on, on and on

Strolling ain't it wonderful
Stars fall for we two

Bathed in a light of our own

Oh life
Much too great to sacrifice
Come and have another slice
Ah life goes on and on
Oh life
May you live a long life
May you live a long life
May you live a long life
