Love has change, most everyday  
But when you leave, I start to pray  
My love for you, will never end  
My life I'll give, into your hands

Forever

In so far, so far away  
I want to touch, you day by day  
With every tear, I use to cry  
I know is not, my last will find

Forever

Waterfall, is not my waterfall?  
When your mind, I feel so strong and tall  
Be my guy, forever and forever  
Be my guy, I'm begging you to stay

Forever

Forever
