Verse 1:

I'm the one who'd die for you
You go out and bleed for her
Give you love, she breaks you down
Now you say you can't live her now
You say she needs you, I need you more
Tell me what I'm fighting for
Shouldn't be an issue between us
Why's it so hard for you to leave her
Cause her love....

Chorus:

Her love won't love you back
You ain't gotta believe me (No), But baby looks are
deceiving
Believe me
Her love won't love you back
It won't love you back, won't love you back

Verse 2:

When she leaves you hurt and cold
I'm the one you run to hold
When you get locked, she leaves you 'lone
And I'm the one that's on the phone
Making all thee arrangements
To free you back to her arms again
And I pray that things will change
But in my heart I know I'll never win
And her love

Chorus:

Her love won't love you back
You ain't gotta believe me (No), But baby looks are
deceiving
Believe me
Her love won't love you back
It won't love you back, won't love you back

Pre-Bridge

Her love won't love you
Like my love gon' love you
Her love won't love you
Her love won't love you

Bridge:

I won't be your mistress
While she gets all the benefits
Your time, your heart, your attention
Boy all the the things I'm missing
It's like your married to the streets
You never have no love for me
And it's either her or me
Boy please believe her love

Chorus:

Her love won't love you back
You ain't gotta believe me (No), But baby looks are
deceiving
Believe me
Her love won't love you back
It won't love you back, won't love you back

Ab-libs

Remember I told you her love
You know the streets don't love you (no)
You know the game don't love ya

It won't love you
It won't love you

The block don't love ya baby

Won't love ya back
