frozen like a naked astronaut
histories remembered one forgot, oh
Fill me with a little tune?
how dare we?
getting innocent of hurting today

science says the course demands a plot
let me toss these tragedies to rot, oh
things aren't always said to scare you
cut my words for real how dare you?
you know that that stuff
gets inside me and tears me up
when the worst that i can conjure up comes true
you, son of a bitch you burned me
when none of them should concern me
look what you guessed with your image and you, oh
guess you'll pass me when you're on your way down

hot seat can't sit down
hot seat can't sit down
hot seat can't sit down
hot seat can't sit down

riffs

rules aren't always said to scare you
took my words for real
how dare you?
you know that that stuff
gets inside me and tears me up
when the worst that i can conjure up comes true
you, son of a bitch you burned me
but none of them should concern me
look what you guessed with your image and you, oh
guess you'll pass me when you're on your way down
yes it matters, don't you say it doesn't

hot seat can't sit down
hot seat can't sit down
hot seat can't sit down
