I am a cracked machine

I am a guide wire hussie

I am your favorite DJ

A blip on the screen

I am a cracked machine

I am a hotshot robot

Short my position

I guarantee

You cannot get to me

You cannot get to ME!

???

Burn??? Halo

Chips on my shoulders

Mercy for me

I won't pretend that I deserved it

Fixed up static

Bounced Cinematic

Tragedy

Don't melt me down, till the crisis is over.

Nooooo!

I am a cracked machine

I am a guide wire hussie

I am your favorite dj

A blip on the screen

Sixteen sargeants

Stacked like matchsticks

Mercy for me.

Knock the first one down and they all fall over.

Mwaaaaaaauuugghhahauguaguaaaauuuggh

First time I forced myself to be real.

And when they turn it up

To saturate it.

They all tear me apart

They never gave me a chance.

It's an answer, to the question

It's plain on my face, it's a fact.

I am a cracked machine

I am a hotshot robot

I am a guide wire hussie

I am your blip on the screen

Auuuuggghhhhhh

I am a cracked machine.

I am a guide wire hussie.

I am your favorite DJ

I am a cracked machine.
