"Dear Summer"

Visit "[Dear Summer](#)" on MotoLyrics.com

This goes out to the one
To the one that got away
I know there is someone up there

In the beginning I wanted to settle down
You play your part and made me... away
I am finally waiting we would been in this relationship
... now we, once again I must take a stand and et you
escape once again
Do you know if you go... when I know it's been using Â–
measure up to you
Dear summer this is my... summer
This used to be our summer
This is for my ex
This used to be our summer
This is for my

I wish I had it all... like probably with more than...
I was committed and suicide then is ax... separate ways
I made no... you and I... love fall
Keep me bathing... been you don't tell me you don't
feel this way
... now we, once again I must take a stand and et you
escape once again
Do you know if you go... when I know it's been using Â–
measure up to you
Dear summer this is my... summer
This used to be our summer
This is for my ex
This used to be our summer
This is for my
