Crimson Cardinal sees his life
Into the glass he flies
The perfect partner he does spy
A moment's glance of eyes

Reflections of a future love
Feel the pull of fate
The perfect love turned out to be
Himself in haste and vain

Passion's flash of red
Bloodied on the pane

In your eyes I find
You are my love light
You are my love light
You are my love light

Blinded by surprise
You are my love light
You are my love light
You are my love light

All the qualities I loved
Now bite me black and blue
All the joys you loved in me
Come biting back at you

So innocent we found ourselves
Becoming what we'd feared
Till death do us our shadows part
Make room through all these tears

Till something new appears
Reborn in this nadir

In your eyes I find
You are my love light
You are my love light
You are my love light

Blinded by surprise

You are my love light
You are my love light
You are my love light

In your eyes I find
You are my love light
You are my love light
You are my love light

Blinded by surprise
(I won't find happiness)
You are my love light
(Looking outside myself)
You are my love light
You are my love light

In your eyes I find
(I won't find happiness)
You are my love light
You are my love light
You are my love light

Blinded by surprise
(I won't find happiness)
You are my love light
(Looking outside myself)
You are my love light
You are my love light
