[Verse 1:]

Maybe I'm wrong but I don't think we should force it  
Getting all bent outta shape like we some contortionist  
Miss, if we was married I'd say divorce it  
You looking dynamite but you blew this outta proportion  
I took a lot of ish, I think I had my fair portion  
So I had to let my baby go, pro-abortion  
I hate I had to let my baby go from my forceps  
But I ain't one for holding on, I just got a poor grip  
Tsk tsk, wish that we could take it back like TiVo  
This whole thing done gone out control with no remote  
I'm shooting for her heart, for her heart, no reload  
I'm shooting for her heart, for her heart, whoa recoil  
It's time to face the facts, pay attention, no decoy  
This heart is full of cracks, full of cracks, no D-Boy  
It was a good run while it lasted  
I guess our love just had asthma

[Chorus:]

We going harder and harder  
Higher and higher  
Every dream is assembly required  
Been watching and waiting  
For my constellation  
Show me a sign, a sign in the sky  
We going harder and harder  
Higher and higher  
Every dream is assembly required  
Been watching and waiting  
For my constellation  
Show me a sign, a sign in the sky

[Verse 2:]

In search of... love and I found it  
Electric personality, thank God that I'm grounded  
And nah we ain't grounded, we just enjoy the great  
indoors  
We could be kicking it in the car and we'd never get  
bored  
Our conversation requires no concentration  
Don't gotta look in the sky to see my constellation  
Cause you're a star in my eyes, the one that I've been

waiting for

The reason why none of my past relations, worked  
I can't afford to splurge but how bout we spend the  
night out

If you don't sleep, I don't sleep. We'll be some night  
owls

Let's ride out and kick it on Broadway like my posse  
And spend the night watching the stars like paparazzi  
I'm far from Jewish so how could I (Nazi) not see  
Potential that we share, more love than a care bear  
stare

They're just weird if they don't understand this love  
So in love like hands in gloves, that's pretty often,  
pretty awesome

[Chorus:]

We going harder and harder

Higher and higher

Every dream is assembly required

Been watching and waiting

For my constellation

Show me a sign, a sign in the sky

We going harder and harder

Higher and higher

Every dream is assembly required

Been watching and waiting

For my constellation

Show me a sign, a sign in the sky
