Let's go outside
Forget everything for just one night
Nothing to hide
I wanna see you beneath the bright moonlight
Let's do this right let's go explore
Try something we've never tried before

This catapult will send us into the sky, into the sky
No I won't let you fall
'Cause you were born, born to fly
Born to fly, born to fly

They'll climb to the rooftops
And just to see us come brushing by
Over the streets and the sidewalks
Well they'll come running out tonight
Something's bound to happen here
It's been bottled up, bottled up for years

This catapult will send us into the sky, into the sky
No I won't let you fall
'Cause you were born to fly, born to fly
Through starry trails
Tonight across the blue we'll sail
This catapult will send us into the sky
'Cause you were born to fly, born to fly, born to fly

We'll be like satellites and never touch the ground
Lost in northern lights we'll never come back,
Never come back down!

This catapult will send us into the sky, into the sky
No I won't let you fall,
'Cause you were born to fly, born to fly
Through starry trails
Tonight across the blue we'll sail
This catapult will send us into the sky
'Cause you were born to fly, born to fly, born to fly
You were born to fly, born to fly, born to fly!
