Mignon, Men sometimes lie to get what they want of
you.

It is so hard to find a love that is true.

Use your gifts to give away but not yourself.

Never give your heart away to any human.

It will finish you. It will finish you.

Women are mean to the one who is more beautiful.

They lie to your face even more.

To take and deceive some worthless man.

They will get what they deserve in their core.

You are beautiful on the inside and it comes through.

They want what you have.

They are no good for you.

They are no good for you.
