Hello friend
I am writing to you this letter
They tell me you're fine
I myself I have been better

We blow up like atom bombs
The world sound tracks a sing along
But to know that we're fine
Life is a free fall
Life is a free fall
Life is a free fall
Life is a free fall

Superman's on Holidays
Superman's on Holidays
Superman's on Holidays
Superman's on Holidays

The world it spins around
Try to catch your breath come time to settle down
Try to battle the lows and the highs
Of the flow and the vibe of the city

Yeah you're down in a hole
Convince yourself that the worlds so cold
In the rays of the sunshine

Then you cried HELP!
But no one's on the way
Superman's on Holidays
So who will save the day
