So the sun set and all the freaks and jocks met,
You're like a nightmare with foxy clothes and nice hair,
I'm wasting my time, I'll never outshine,
I'm drowning so throw me a freakin' lifeline.

Build me up, let me down,
Girl just make some sound.

I know you want me, it's easy to see,
So come on come on baby, make out with me
I know your aching to me mine,
Make out with me you'll be just fine.

It's party night tonight, the feelin' is right,
This girl's all over me, let's hope she's polite,
Excuse me, what's your name?
Girl, it's a shame I'm not into your crazy mind games

Build me up, let me down,
Girl just make some sound.

I know you want me, it's easy to see,
So come on come on baby, just set me free,
I know your aching to me mine,
Maybe with me you'll be just fine.

Put your hands up if you're feelin' me, let go on 1, 2, 3.
Put your hands up and sing with me, let go on 1, 2, 3.

I know you want me, it's easy to see,
So come on come on baby, just set me free,
I know your aching to me mine,
Maybe with me you'll be just fine.
