"Space Camp"

Some people like to camp next to a tree
Some people camp out in front of their TV
Some people camped out to see episode III
For some people that's fine but it's just not for me

At Space Camp excitement did abound
I flew so high without leavin the ground
In a simulator I broke the speed of sound
The multi-axis chair flipped me around

Carl Sagan sent a message to E.T.
Neil Armstrong walked in the Sea of Tranquility
Steve Squyers built spirit and opportunity
Dan Haylett upchucked in zero gravity

At Space Camp excitement did abound
I flew so high without leavin the ground
In a simulator I broke the speed of sound
The multi-axis chair flipped me aroundlol
