Keep my heart tender before you, lord  
Able to hear your voice and follow  
Keep my heart yearning to know you more  
Eager to hear your word and obey  
Keep my heart, flowing in your direction lord

Keep my heart, holy light, so innocent and undefiled  
King of love, lord most high, so beautiful and bright

Morning star, keep my heart

Keep my heart, holy light, so innocent and undefiled  
King of love, lord most high, so beautiful and bright  
Morning star, keep my heart

Keep my heart
