I thought love at first sight was a fate for someone else
And you'd never catch me fallin' that fast myself
But I didn't even need two seconds alone with you
All it took was one and only one

Now, I see me bein' faithful, me bein' true
Holdin' on and never lettin' go of you
Girl, look what you've done
The one thing I want is you lovin' me
And from now on the only thing I want to be
Is your one and only one, one and only one

You've got a heaven sent heart and an angel's touch
Not to mention your kiss that I can't get enough of
And when I see your smile this feelin' deep, down
inside
Tells me you're my one and only one

Now, I see me bein' faithful, me bein' true
Holdin' on and never lettin' go of you
Girl, look what you've done
The one thing I want is you lovin' me
And from now on the only thing I want to be
Is your one and only one

I didn't even need two seconds alone with you
All it took was one and only one

Now, I see me bein' faithful, me bein' true
Holdin' on and never lettin' go of you
Girl, look what you've done
The one thing I want is you lovin' me
And from now on the only thing I want to be
Is your one and only one, one and only one

One and only one
One and only one
One and only one
One and only one
One and only one
