If Not For People by Bridges I Burn
Close your eyes
when you swear
'Cause with that look it's just not there
I know some hairs that hide,
What beats inside
And I can't remember what you said,
It's not the words you used to say it.
It's hard to speak back,
When your jaw can't close shut.

And I hope you recognize my intentions
And I hope you care what I can mention, my intentions

Cause you are not good around people
Making it uneasy for us to breath with relief
Cause you are not good aroud people
Stay away from everyone,
Cause it shakes me up like them (like them)

I use this bated breath as an opportunity to keep me
From banging this sweet head,
Against the walls that are out of reach.
It's not a fracture down my spine,
But, chills stored from a better time.
With buttons painted black,
Around my neck is where I keep it at.

And I hope you recognize my intentions
And I hope you care what I can mention, my intentions

(Coro)
