Who knows when this will end
This world of pain and tears
We could fall down any day
I'm taking back my life now
I will have no fears
Just take a pill and fade my way

Hey baby come back
Ya gotta come on back
You better believe me
Hey baby come on back
Ya gotta come on back
You know ya gotta save me
Hey baby come on back
You know every time you don't react
C'mon baby come on back

Surrender yourself to me
Fight your biggest war
Live each day like it's your last
Someday you will see
What I'm fighting for
Hurry up cause I'm falling fast.

I'm still waiting for you
No this can't be true
So hey baby come on back
