Take my picture make my statement

You're chargin' me with fear of commitment

I can't slow down I'm on the run

But if you catch me we could be one on one

One on one

You can't control me, I'll never change

You'll never fool me, you can try again

Do I wanna be your baby? Oh yeah, okay, definitely  
maybe

Do I wanna be your baby? Oh yeah, okay, definitely  
maybe

Want my affection? Take a number

I've been avoiding you since last summer

Keep runnin' till I'm numb

If you catch me we could be one on one

One on one

Try and catch me, if you think you can

Don't give up easy, don't give a damn.
