He wouldn't love me like I wanted him to do  
He wouldn't even say good night  
You know I told myself I would not waste me time  
Then why am I standing here tonight

And I don't know, don't know, don't know, don't know

Hey. Good girls they won't get you through the night  
And good girls they won't make you feel alright  
But sometimes sometimes they just got their way  
Those good girls seem to make you wanna stay  
And I don't know

He said my reputation beat me to the door  
I said it was lies and idle talk  
You know I'd teach you love like no one else before  
He told me that would take awhile

And I don't know, don't know, don't know, don't know
