"Leave a Light On"

Visit "[Leave a Light On](#)" on MotoLyrics.com

Don't worry mama if I hafta go away
I'll always be your little girl
Before I go I'll leave a little piece of me
And then I'm off to see the world

I'm off to find my dreams
Across the 7 seas

Don't forget to leave a light on for me
So I can find my way home again
Just remember to leave a light on for me
So I can always find my way

I call home, late from West Berlin
I always know you'll take my call
And when I'm broke, you'll know the state I'm in,
And catch me before I ever fall

A million miles from home
I'll never feel alone

You said you've always know
It's in my bones and I won't come home
Leave a light on for me
I'll find my way back you'll see
