Another nothing day

Another useless fucked up never ending day

I spent the day in bed again

Avoiding humans cause they all think I'm insane

Get me right, get me staight

Get me a nothing 9 to 5 so I don't waste away

Sick and tired of being sick and tired of feeling sick
and tired

Sick and tired of being sick and tired of feeling sick
and...

Anything lifeless day

Another almost 20 still have nothing day

I tried to go outside again

I hide, remote in hand with nothing but my pain.

Get me strong, get me clean

Get me to exercise my low selfless esteem.
