Let me tell you a story of a girl who got
lost even on her way to school
She had a secret crush the cutest boy
in her world
He would point and stare with all the
other friends he had

Chours

They called her the little lost girl the little lost girl
of central high. She didn't know her name too
busy playing games. All she needed to know
was that her friends liked her for her wacky ways

Miss little lost girl didn't have a lot of
friends but deep inside she was a lot of fun
I didn't know her much bust she seemed so
far away
Miss little lost girl wasn;t far away she somhow
found her way

Chours

They called her the little lost girl the little lost
girl of central high. She din't know her name too
busy playing games. All she needed to know was
that her friends liked her for her wacky ways

Ending

Miss little lost girl time to get you game straight
