

Broken Hearts Are Blue "Get'n Over My Sassy Self"

I'm your twenty first century denim cult hyperbole.
I'm hopelessly hopeless. Don't ever try and love me.
Ravage me over my sassy self. Rant and rave over...
Hen you're famously fighting photos and everyone
wants
Your autograph.
And the darling that you really want decides on Vic

Damone instead.
If you want to redefine yourself, then come on in, I'll
Show you around.
I'll show you off. I'll validate you. I'll certify you.
O terrible me. O terrible me.
Rant and rave over my ideology.
Ravage me over my sassy self.
